

## Georgia

### DRUG-FREE WORKPLACE PREMIUM CREDIT

Employers who establish and maintain a drug-free workplace program are eligible for a 7.5% premium credit. This credit is provided as an incentive to prevent and reduce losses that are a result of alcohol and drug-related workplace accidents. Acceptance of the insured into the program will be determined by Kinetic Insurance and will be based on receiving a copy of the employer's certificate from the Georgia State Board of Workers Compensation.

Visit this URL for information about the program, certification cost, and online application.
