

Tech-Driven Risk Prevention for the Healthcare Industry

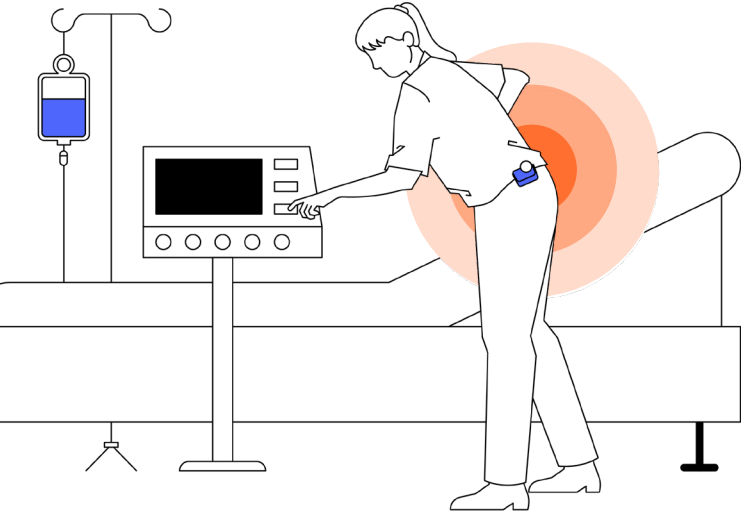

Proven Loss-Reduction Technology

World-class wearable tech helps protect workers in environments where high strain and sprain injury rates are present, like in the healthcare industry. The Kinetic Reflex wearable platform detects high risk behaviors and provides data-driven insights to prevent strain & sprain injuries and claims before they happen.

Strain & Sprain Claims are Leading Loss Drivers

Among nursing home, senior living and home healthcare workers, strain and sprain claims represent 45% of all indemnity, or lost time, claims. Indemnity claims are also the most expensive, with a much higher than average claim cost.

Key Benefits

- Free Wearable Safety Tech
- Proven Loss Reduction
- Nationwide-Backed Policies
- A+ Rated Paper
- Client Dividends
- Premium Savings
- Improved Experience Modification
- Best-in-Class Claims Handling
