

Tech-Driven Risk Prevention for the Hotel Industry

Proven Loss-Reduction Technology

World-class wearable tech helps protect workers in environments where high strain and sprain injury rates are present, like in the hotel industry. The Kinetic Reflex wearable platform detects high risk behaviors and provides data-driven insights to prevent strain & sprain injuries and claims before they happen.

Strain & Sprain Claims are Leading Loss Drivers

Among hotel workers, strain and sprain claims represent 51% of all indemnity, or lost time, claims. Indemnity claims are also the most expensive, with a much higher than average claim cost.
