

## Tech-Driven Risk Prevention for the Food Services Industry

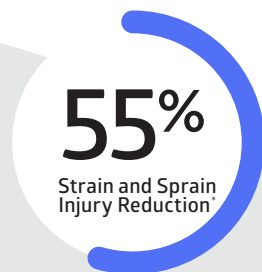

### Proven Loss-Reduction Technology

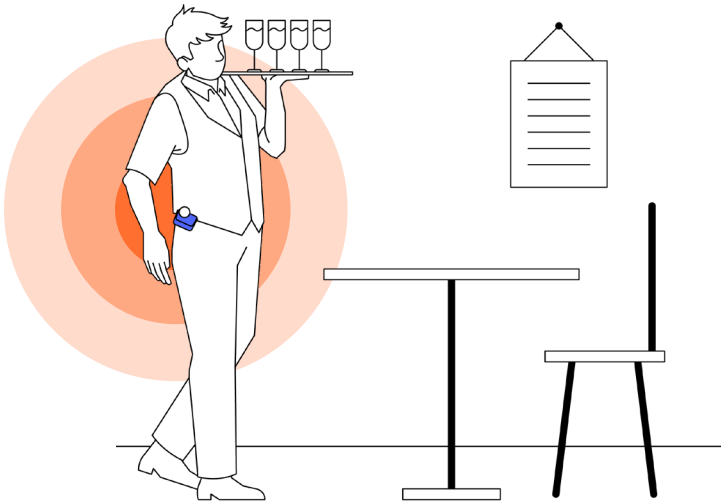

World-class wearable tech helps protect workers in environments where high strain and sprain injury rates are present, like in the food services industry. The Kinetic Reflex wearable platform detects high risk behaviors and provides data-driven insights to prevent strain & sprain injuries and claims before they happen.

### Strain & Sprain Claims are Leading Loss Drivers

Among restaurant and fast food workers, strain and sprain claims represent 20% of all costs. The strain and sprain cost per claim is higher than the average claim cost for this industry.
